

## List of organisations involved in activities aimed at countering climate change

	Name	Date joined	Jurisdiction	Description	Participation by KGHM
1	<b>Związek Pracodawców Polska Miedź</b>	1996	Poland	<p>ZPPM is an organisation of employers which protects the rights, and represents the economic interests of, its member companies. The union promotes best practices and activities in terms of sustainable development, aimed at protecting the climate and environment and at emphasising the importance of the circular economy. It also encourages the use of renewable energy sources as well as broadly-defined electromobility.</p> <p>One of the statutory goals of ZPPM is to enhance the image of industry and to point out the actions taken by its members on behalf of ecology and the natural environment, as well as to demonstrate the significance of raw materials in the achievement of environmental and climate-related goals.</p>	<b>KGHM's representative serves as the Chair of the Union Council. Other KGHM representatives serve as Members of the Union Council.</b>
2	<b>International Copper Study Group</b>	1996	International	The International Copper Study Group is an organisation of countries in which an important element of their national economy is the mining, smelting and processing of copper. ICSG monitors legislation of vital importance to the copper industry in terms of environmental protection and OHS, and also conducts annual research into global copper scrap consumption.	<b>KGHM participates in work at the request of the Government of the Republic of Poland.</b>
3	<b>IWCC - International Wrought Copper Council</b>	1996	International	An international organisation of producers of copper semi-products and copper alloys.	<b>KGHM's representative participate in the work of the Wirerod Committee. Each year the company also supports the organisation of Joint Meetings of this organisation and participates in them.</b>
4	<b>London Bullion Market Association</b>	2000	International	The LBMA is an organisation which strives to ensure the proper conduct of wholesale trading on the gold and silver markets. It engages in a responsible sourcing program which is compliant with the five-stage framework of due diligence set forth in OECD guidelines and among others requires refineries to respect the natural environment. Compliance with the rules of this program is obligatory for members of the LBMA and is subject to an annual audit.	<b>KGHM is a member of this organisation.</b>

5	<b>Polska Izba Ekologii</b>	2002	Poland	<p>The Polish Chamber of Ecology is an organisation comprised of local government economic bodies and represents the economic interests of its members in terms of their actions on behalf of environmental protection. The primary idea guiding the Chamber in these actions is to follow the principle of sustainable development.</p> <p>PIE organises free training related to the problems of environmental protection and the financing of investments in this regard, including sourcing funds from the European Union.</p>	<b>KGHM is a member of this organisation.</b>
6	<b>Euromines</b>	2004	EU	<p>Euromines represents the European mining industry. It provides advocacy services for its members as regards EU policy and creates a network of cooperation and for the exchange of know-how for the entire sector in Europe. It supports contacts with the global mining community. The members of Euromines are composed of 19 national mining federations and 16 mining companies.</p>	<p><b>KGHM's representative participates on the Steering Committee.</b></p> <p><b>KGHM employees also work on the substantive committees of this organisation, such as the Task Force on Critical Raw Materials, the Health and Safety Committee, the Policy Committee, the Environment Committee and the ETS/Energy Committee.</b></p>
7	<b>Eurometaux</b>	2005	EU	<p>This is a European association of companies in the non-ferrous metals industry, comprised of 61 producers and recyclers of non-ferrous metals in the EU. The main goals of this organisation involve the promotion of sustainable production, the utilisation and recycling of non-ferrous metals in Europe and the development of a supportive business environment in which the members of Eurometaux can grow. The main activities involve subjects related with Energy and Climate Change, Sustainable Development, International Commerce and the Management of Chemicals.</p>	<p><b>KGHM's representative participates on the Executive Committee.</b></p> <p><b>KGHM employees also work on the substantive committees of this organisation, such as the International Trade Committee, the Sustainability Committee, the Energy and Climate Change Committee, the Chemicals Management Committee and the Communications and Public Affairs Committee.</b></p>
8	<b>Izba Energetyki Przemysłowej i Odbiorców Energii</b>	2006	Poland	<p>The Chamber of Industrial Energy and Energy Consumers is an organisation comprised of local government economic bodies in Poland involved in the generation, turnover and consumption of electricity and heat energy.</p> <p>The activities engaged in by IEPiOE include actions related with promoting the efficient utilisation of electricity and heat energy by their recipients, searching for alternative and environmentally-friendly energy sources, and also assistance involving questions related to adapting to current challenges associated with climate and energy policy.</p>	<b>KGHM's representative works on the Chamber's Board.</b>

9	<b>International Copper Association and the Copper Alliance</b>	2007	International	<p><b>The ICA</b> is a non-profit organisation comprised of companies engaged in copper mining and their partners aimed at achieving positive results in advancing the UN's sustainable development goals and supporting development of the copper market. This organisation advances its goals via six strategic programs. KGHM's representatives participate in the work of the ICA by taking an active part on its committees, both at the management and substantive level.</p> <p>ICA initiated and is advancing the Copper Mark project, which highlights the responsible production practices of the copper industry and its contribution to achievement of the UN's sustainable development goals. This is a voluntary program advanced by companies in the copper sector.</p> <p><b>The Copper Alliance</b> – a network of regional copper centers and their leading sector companies, directed by the ICA. Individually, members of the Copper Alliance® for years have shared their sustainable development indicators with the public. In 2011 the members of the Copper Alliance® decided to jointly analyze these numbers. By doing this on a global scale through the mediation of the ICA, the sector is able to identify areas for comparative analysis and act jointly. The ICA has committed to announcing this data publically. <a href="https://sustainablecopper.org/ica-indicators-2/">https://sustainablecopper.org/ica-indicators-2/</a></p>	<p><b>KGHM's representative sits on the Board of Directors/Executive Committee.</b></p> <p><b>KGHM employees are also active in the work of the organisation's committees, such as the Strategy Committee, Material Stewardship Committee, Marketing Council and Industry Reputation Council.</b></p>
10	<b>Polska Izba Gospodarcza Zaawansowanych Technologii</b>	2008	Poland	<p>The main goal of the Polish Economic Chamber of Advanced Technology is to support the activities of its members in building the market position of the advanced technology innovation projects they are engaged in. The organisation supports among others initiatives related to new, environmentally-friendly renewable energy sources and energy efficiency.</p>	<p><b>KGHM is a member of this organisation.</b></p>
11	<b>Izba Gospodarcza Metali Nieżelaznych i Recylingu</b>	2009	Poland	<p>The Chamber of Commerce of Non-Ferrous Metals and Recycling was founded in 1995 as a result of initiatives of companies and institutions in the non-ferrous metals sector. It supports its members among others by organising training and conferences on policy in the areas of industry, commerce, taxation-finance, environmental protection, climate and changes in existing laws.</p>	<p><b>KGHM's representative works on the Chamber's Board.</b></p>
12	<b>European Precious Metals Federation</b>	2009	EU	<p>The members of the EPMF include the largest European precious metals producers.</p>	<p><b>KGHM employees work on the substantive committees of this organisation, such as the SVHC Roadmap Platform, Rhenium Platform, Responsible Sourcing Platform, Ag and Au Platforms.</b></p>

13	<b>European Technology Platform on Sustainable Mineral Resources</b>	2010	EU	The activities of the ETP SMR concentrate on creating potential for sustainable development for the sector related to mineral resources, including enabling access to key, critical raw materials, their supply from European resources and the efficient management of raw materials while respecting the climate and environment. This task is advanced by research, development and innovation and the realisation of joint projects and programs vital to European industry.	<b>KGHM is a member of this organisation.</b>
14	<b>Polska Izba Gospodarcza „Ekorozwój”</b>	2011	Poland	The main task of the Polish Chamber of Commerce "Eco-development" is the promotion of sustainable development throughout the economy and its individual sectors. PIGE participates in legislative processes involving the creation and change of environmental laws. It organises the prestigious national ecological competition „Green Laurel” sponsored by the Minister of Climate and the Environment. It shapes and disseminates the rules of professional ethics in business activity in the context of eco-development.	<b>KGHM is a member of this organisation.</b>
15	<b>International Lead and Zinc Study Group</b>	2012	International	The ILZSG is a forum in which governments and industry interested in the lead and zinc markets can exchange views on questions related to the environment and health. These exchanges take place via the Economic-Environment Group Committee. In addition, the ILZSG maintains contacts with relevant international organizations such as OECD, UNEP, the Basel Secretariat, the European Commission and the World Bank, as well as with private industry associations. As part of its activities, the organization, among others, publishes reports and tracks environmental aspects related to the activities of mines and lead and zinc smelters, as well as the end uses of these metals.	<b>KGHM participates in the work of the ILZSG at the request of the Government of the Republic of Poland</b>
16	<b>Polsko-Kanadyjska Izba Gospodarcza</b>	2012	International	The Polish-Canadian Chamber of Commerce unites over 50 entities. The Chamber's activities are aimed at creating a platform for economic, cultural and commercial relations between Poland and Canada.	<b>KGHM is a member of this organisation with the status of Patron.</b>
17	<b>Minor Metals Trade Association</b>	2013	International	This organisation unites companies that trade in base metals. MMTA is active in the area of sustainable development, focusing on issues such as circular economy, sustainable road transport, renewable energy technologies and responsible procurement.	<b>KGHM is a member of this organisation.</b>

18	<b>CEFIC - the European Chemical Industry Council</b>	2013	EU	<p>In terms of actions on behalf of sustainable development, the CEFIC and its members concentrate on facilitating the transformation into a low-emissions economy, increasing resources utilisation efficiency, promoting the principles of the circular economy and low-emissions economy, and also preventing harm to people and nature.</p> <p>Based on the Responsible Care program and other sustainable development initiatives, CEFIC and its members have developed a Sustainable Development Scorecard and agreed a sustainable development goals roadmap supporting innovation and the achievement of SDGs, in accordance with CEFIC's Sustainable Development Vision.</p>	<b>KGHM is a member of this organisation and participates in the work of the European Sulphuric Acid Association (ESA), which acts under CEFIC.</b>
19	<b>European Innovation Partnership on Raw Materials</b>	2014	EU	<p>The EIP plays a key role in the EU's raw materials policy. It has an important role in achieving the objectives of the European Commission's flagship initiatives such as "Innovation Union" and "A resource-efficient Europe" by ensuring a stable supply of raw materials for the European economy while increasing the benefits for society as a whole.</p>	<b>KGHM representatives are members of the High Level Steering Group and the Sherpa Sub Group. KGHM employees are members of the Operational Expert Group.</b>
20	<b>Consejo Minero</b>	2014	Chile	<p>CM's members are the largest mining companies operating in Chile. It deals with the promotion of knowledge about the mining sector, its challenges and its contribution to the development of Chile. It works for the development of a modern and environmentally friendly mining industry.</p>	<b>KGHM is a member of this organisation.</b>
21	<b>EIT Raw Materials</b>	2018	EU	<p>This organisation unites over 1000 partners. The EIT is Europe's largest innovation network. It supports European entrepreneurs in turning ideas into products, services, jobs and economic growth.</p>	<b>KGHM is a member of this organisation.</b>
22	<b>Związek Przedsiębiorców i Pracodawców</b>	2019	Poland	<p>As part of the ZPP, the Energy and Environment Forum operates, under which activities are carried out in the areas of Climate, Air, Waste and the Circular Economy, and Water.</p> <p>The aim of the Forum is, among others, participation in the development of the Polish energy transformation plan and implementation of the priorities of the European Union's climate policy, taking into account the needs and conditions of our industry.</p>	<b>KGHM is a member of this organisation.</b>
23	<b>Polska Izba Przemysłu Chemicznego</b>	2019	Poland	<p>This organisation represents the chemical sector, its tasks include influencing the shape of economic and social legislation supporting the sustainable development of the chemical industry and taking into account the rights and interests of its members. The Chamber is also the implementer of the Polish path of the international program "Responsible Care".</p>	<b>KGHM's representative works on the Chamber's Board. KGHM's representatives work on several of the Chamber's committees, including the Environmental Committee, the Research and Innovation Committee and the Safety and Technology Committee.</b>

24	<b>Związek Pracodawców Business &amp; Science Poland</b>	2019	EU	The aim of BSP is to support Polish entrepreneurs and science in understanding the programming processes of the European Commission agenda, law-making in Brussels and Strasbourg, and in speaking out in the forum of the EU's institutions. BSP supports its members in the processes of monitoring EU legislation in the field of environmental protection and climate and adapting to the legal requirements introduced by them.	<b>KGHM's representative works on the Chamber's Board.</b>
25	<b>American Chamber of Commerce in Poland</b>	2019	International	A platform for international investors to discuss and identify common interests and exchange information on their business activities in Poland. AmCham's long-term goal is to improve investment opportunities and the business environment in Poland.	<b>KGHM's representative works on the Advisory Council of this organisation.</b>
26	<b>International Lead Association</b>	2020	International	The ILA is an organization of leading lead producers and other companies directly interested in using this metal. ILA and three other associations - Battery Council International, EUROBAT, and the Association of Battery Recyclers - have entered into a global alliance to improve standards in lead battery production and recycling worldwide. The organizations are working together on a comprehensive materials management program that aims to include promoting accountability and enforcing controls over the protection of health and the environment.	<b>KGHM is a member of this organisation.</b>
27	<b>European Raw Materials Alliance</b>	2020	EU	The ERMA action plan contains current and future challenges and proposals for action to reduce Europe's dependence on imported raw materials, diversify supplies from both primary and secondary sources, and improve resource efficiency and circularity, while promoting sustainable access to raw materials across the globe. The Alliance will involve all stakeholders, including industrial actors in the value chain, Member States and regions, trade unions, civil society, research and technology organizations, investors and NGOs.	<b>KGHM is a member of this organisation.</b>
